Altenberge, 05<sup>th</sup> March 2012 / SP

## Confirmation for CORDULEN<sup>®</sup> Slip 5970/PP

Dear Mrs. Mursula,

Hereby we confirm that the ingredients of our masterbatch CORDULEN<sup>®</sup> Slip 5970/PP are in accordance with the following food contact legislations:

Europe:  
Regulation (EU) 10/2011 (without SML)

USA:  
FDA 21 CFR § 177.1520 (Olefin polymers)  
§ 175.105 (Adhesives)  
§ 179.45 (Irradiation)

The FDA article § 178.3297 is not appropriate, because according to the recipe, there are no pigments in our masterbatch CORDULEN<sup>®</sup> Slip 5970/PP.

We confirm that we do not use latex, heavy metals, silicones and phthalates in the production of CORDULEN<sup>®</sup> Slip 5970/PP, therefore we do not expect their presence.

The (migrating) active ingredient „Erucamide“ in CORDULEN<sup>®</sup> Slip 5970/PP is listed in the European Pharmacopoeia in section 3.1.3 (Polyolefines), the maximum dosage is 5 % CORDULEN<sup>®</sup> Slip 5970/PP.

This information is based on information from our raw material suppliers and not on analytic inquests.

Best regards  
Nemitz Kunststoff-Additive GmbH  
i.V.

(Dr. Bernd Spachmann)
